- **Platforms:**   PyCharm, Visual Studio Code, IDLE, Sublime
- **Framework:**   Django
- **Databases:**   MySQL, SQLite
- **Programming:**   Python, PHP
- **Soft Skills:**   Team work, Problem solving

Project Work

VedAI | Link   **Marwadi University [March 15, 2024 – Present] |** *Individual Project*
Tech Stack: Python, Django, SQLite, Google Gemini API, HTML/CSS, JavaScript

An AI-powered platform that merges **ancient Hindu scriptures with modern technology** to offer **spiritual guidance, life solutions, and ritual assistance**. Provides **Bhagavad Gita insights** and **newborn baby name suggestions based on Rashi**, making Vedic wisdom accessible anytime, anywhere.

- Life Solutions covering career, relationships, health, and spirituality.
- Bhagavad Gita Shlokas & Meanings for spiritual insights.
- Rashi-based Newborn Name Suggestions & Horoscope Insights.

Employee QR Code ID System |Link   **Marwadi University [March 18 – APR 04, 2024]** *Individual*
Tech Stack: Python,Django, SQLite, HTML5, JavaScript, QRCode

- Built a web-based employee management system that assigns a unique QR code to each employee for quick access to their profile.
- Implemented features for admin dashboard, profile photo and resume upload, QR code generation, and a mobile-friendly profile view.
- Integrated an in-browser QR scanner using html5-qrcode.js for real-time scanning and profile display.
- Ensured secure access control using Django's authentication system.
